3. Team Members

The Enterprise plan allows you to add additional users to your organization. Each team member gets their own login and private workspace under your account umbrella.

Adding Team Members

1

Go to Admin Command Center

Click the "Admin" tab in the top navigation bar (visible only to admin accounts).

2

Open the Users Tab

Click the "Users" tab in the Admin Command Center.

3

Find or invite the team member

Team members must first create their own Free account using their work email. Once they have signed up, you can find them in the Users list.

4

Click the Edit (pencil) icon

Click the pencil icon on the team member's row to open the Edit User drawer.

5

Set plan to Pro or Enterprise

Use the Plan selector to grant them full access.

6

Set role

Choose "User" for standard team members or "Admin" for managers who need access to the Admin Command Center.

7

Save changes

Click "Save Changes". The team member's account is instantly upgraded.

!9 INFO

Team members have their own private workspaces. Their clients, estimates, and notes are separate from yours unless you choose to share access.

Team Permissions

- User role — Access to Estimator and CRM only. Cannot see the Admin Command Center. Full isolation from other users' data.
- Admin role — Full access including Admin Command Center. Can edit any user's plan, role, and subscription status. Can view all Web Leads. Can see the Audit Log.

& NOTE

Only grant Admin role to trusted managers. Admin users can view and modify all accounts in your organization, including billing-related information.

Managing the Team

You can manage all team members from the Admin Command Center! Users tab

- Suspend a user — Click the Ban (🚫) icon to immediately block a user from s
- Reinstate a user — Click the checkmark icon to restore access to a suspended user.
- Reset password — Click the rotate arrow icon to send a password reset email to any user.
- Edit plan/role — Use the pencil (edit) icon to change any user's plan, role, subscription status, or onboarding state.

4. Admin Command Center

The Admin Command Center is your central management dashboard. Access it by clicking "Admin" in the top navigation bar.

Overview Dashboard

The Overview tab shows a real-time snapshot of your organization:

- Total Users — Total number of registered accounts.
- New This Month — Users who signed up in the current calendar month.
- Active Plans — Number of paid (active) subscriptions.
- Estimated MRR — Monthly Recurring Revenue calculation based on current plan distribution.
- Users by Plan chart — Visual breakdown of Free vs. Pro vs. Enterprise users with percentage bars.
- Subscription Statuses chart — Breakdown by billing status: Active, Trialing, Past Due, Canceled, Inactive.

TIP

Review the Overview tab weekly to monitor growth trends, identify at-risk accounts (Past Due), and track your revenue trajectory.

Users Tab

The Users tab shows every registered user with full details:

- Avatar — Initial letter of the user's email address
- Name / Email — Display name (from profile) and email address
- Plan badge — Color-coded plan: Gray (Free), Blue (Pro), Purple (Enterprise)
- Status badge — Subscription status: Active (green), Trial (blue), Past Due (yellow), Canceled (red), Inactive (gray)
- Joined date — When the account was created
- Last sign-in — Most recent login date
- Actions — Pencil (edit), Reset Password, Suspend/Reinstate, Stripe link (if applicable)

Use the search bar to find users by name, email, or company. Use the "All Plans" dropdown to filter by plan tier.

Edit User Drawer

Click the pencil icon on any user to open the Edit User drawer — a right-side panel with controls to instantly change:

- Plan — Free, Pro, or Enterprise (color-coded toggle buttons)

- Role — User or Admin (blue/red toggle)
- Subscription Status — Active, Trialing, Past Due, Canceled, or Inactive dropdown
- Onboarding Complete — Toggle switch. Turn off to force the user through the setup wizard again on their next login.

1 **Make your changes**

Click the desired plan, role, or status. Changes are highlighted immediately in the drawer.

2 **Click "Save Changes"**

All changes are applied instantly and logged to the Audit Log.

!9 INFO

Every change made in the Edit User drawer is recorded in the Audit Log with a timestamp, the admin who made the change, and what was changed.

Billing Tab

The Billing tab provides a financial overview focused on paid subscriptions:

- Est. MRR — Your estimated monthly recurring revenue (Pro × \$29 + Enterprise × \$79).
- Active Subscriptions — Count of currently active paying subscribers.
- Trialing — Users on a trial period.
- Past Due — Users whose payment has failed. These users may lose access soon — follow up.
- Paying Users table — Lists all Pro and Enterprise users with their plan, status, MRR contribution, and a link to their Stripe customer profile (if Stripe is connected).

& NOTE

Monitor the "Past Due" count closely. A high past-due count indicates payment processing issues that should be addressed to maintain revenue.

Web Leads Tab

The Web Leads tab captures all submissions from the "Need a Website?" interest form in the app. This is a built-in lead generation tool for XpertAISolution.com web design services.

Each lead card shows:

- Business Name — The business requesting a website
- Contact info — Email and phone from the submission
- Submitted date — When the form was submitted
- Status badge — New (blue), Contacted (yellow), In Progress (purple), Completed (green), Declined (red)
- Status dropdown — Change the lead status directly from the card
- Expand arrow — Click to reveal full lead details

Expanded lead details include:

- Full contact information (name, email, phone, address)
- Website preferences (style, colors, budget range, timeline)
- Special details / notes from the client
- Links to uploaded logo and business photos
- Whether the user used their existing profile details or entered custom info
- Unique lead ID for reference

TIP

A red badge on the "Web Leads" tab shows the count of new, unreviewed leads. Check this daily to follow up promptly — fast response dramatically improves conversion rates.

Audit Log Tab

The Audit Log records every privileged admin action permanently. It cannot be edited or deleted.

Each entry shows:

- Timestamp — Exact date and time of the action
- Admin — Email of the admin who performed the action
- Action — What was done (e.g., "update_user", "toggle_ban", "reset_password")
- Target — The user account that was affected

Actions logged include:

- list_users — Admin viewed the user list
- update_user — Admin changed a user's plan, role, status, or onboarding
- toggle_ban — Admin suspended or reinstated a user
- reset_password — Admin sent a password reset email

!9 INFO

The Audit Log is essential for compliance, accountability, and investigating any disputes about account changes. Share it with your organization's compliance team if required.

5. Priority Support

As an Enterprise subscriber, you receive priority email support with faster response times than standard plan users.

- Priority Email — support@xpertaisolution.com (mark subject "ENTERPRISE PRIORITY")
- Response time — Within 4 business hours (vs. 1 business day for Pro)
- Custom onboarding — Request a personalized setup call for your team
- Feature requests — Enterprise customers' feature requests are given priority consideration in the product roadmap

6. Summary: Pro Plan Included

Everything in the Pro plan is included with your Enterprise subscription:

- Unlimited estimates — No cap on estimate creation, saving, or history
- Word Export (.docx) — Download any estimate as an editable Word document
- Full CRM — Client management, pipeline tracking, notes, history, search, and filter
- Advanced per-estimate settings — Override margins, tax, and terms per job
- Estimate to Invoice conversion — One-click invoice from any accepted estimate

7. Summary: Free Plan Included

Everything in the Free plan is also included:

- 18 project types — Painting, Concrete, Roofing, Electrical, Plumbing, Fencing, Landscaping, HVAC, Flooring, Drywall, Masonry, Carpentry, Tile & Stone, Insulation, Siding, Windows & Doors, General Contracting, Custom
- Auto-populate formulas — Smart measurement-to-cost calculations with industry-standard waste factors
- Contractor View — Full internal cost breakdown with margin analysis
- Client Quote View — Professional branded quote with 3 pricing tiers
- PDF Export — Professional download for any estimate
- Print — Browser print with hidden navigation/internal tools
- Company Settings — Full control over branding, defaults, and document settings
- Auto-save — Every 30 seconds, locally and in cloud
- Scope of Work & Exclusions — Detailed scope definition on every estimate
- Internal Notes — Private per-estimate notes never shown to clients

8. Billing & Account Management

Billing Cycle

Enterprise subscriptions are billed monthly on the anniversary of your signup date. You will receive an invoice email each billing cycle.

Changing Plans

To downgrade to Pro or Free, or to make changes to your billing, contact support@xpertaisolution.com. Downgrades take effect at the end of your current billing period.

Cancellation

You may cancel at any time. Your account and all your data (estimates, clients, notes) remain accessible and are retained. You lose access to Enterprise-exclusive features at the end of the billing period.

9. Contact & Support

- Priority Email: support@xpertaisolution.com (include "ENTERPRISE PRIORITY" in subject)
- Response: Within 4 business hours
- Website: xpertaisolution.com
- General inquiries: rmartin@xpertaisolution.com

& FEATURE

Thank you for choosing TTC Enterprise. Your subscription directly supports the continued development of new features, project types, and integrations. We appreciate your trust in our platform.
